ARE YOU SATISFIED?

If you are, this announcement will not interest you, but if you can not answer the above questions to your entire satisfaction, then it is time that you ask a few bread questions yourself and find out what you are eating.

None Better

There is no better bread made than Clarkes. It is mixed, moulded and baked in the most up-to-date and modern bake shop in the Far East. Everything is done by machinery making the finished product clean, healthful and wholesome.

STAMPS, ENVELOPES AND CARDS.

The use of postage stamps was first authorized by act of Congress approved March 3, 1847, and the issue of 5's and 10's began on the 1st July following. Previous to this date postage was collected in money on each letter, prepayment being optional in all cases.

The 1847 and 1851 stamps are obsolete as well as all issued prior to 1861.

See Index to Miscellaneous Information—Front of Book

STAMPED ENVELOPES.

First issue was in June, 1853, of 3 and 6 cents—succeeded by additions, until Oct. 1, 1870, when several sizes were substituted, the denominations of 1 cent, 2 cent 3 cent, 4 cent, 5 cent, 6 cent, 10 cent, 15 cent.

NEWSPAPER WRAPPERS.

1 cent—FRANKLIN; profile bust; color, blue.
2 cent—JACKSON; profile bust; color, vermilion.

POSTAL CARDS.

1 cent—GODDESS OF LIBERTY, changed in 1885 to head of JEFFERSON. In 1886, among other changes the head of Jefferson in center of design. Color of card, light buff. Printing in black. Also, a 2 cent card, called "International," for messages to countries within the Universal Postal Union. In July, 1891, a new design for Postal Cards was issued. In 1897 a Double Domestic Return Card, 2 cent, was issued.

POSTAGE-DUE STAMPS.

Issued July 1, 1879, of the following denominations: 1 cent, 2 cent, 3 cent, 5 cent, 10 cent, 30 cent, 50 cent. Color of all is the same—a reddish brown. A large figure representing denomination in center, surrounded by an oval of delicate lathe work; upper border, "Postage Due" in white letters; lower border is denomination in same letters; on either side of oval the letters "U. S." in small white shields; around the oval is an oblong tablet of complex character.

In 1792 was the first postage law and fixed rates. There were then no envelopes. Each sheet of letter paper was so folded as to be its own envelope. A single sheet was sent 30 miles or less for 6 cents; all additional pieces enclosed an additional rate; 60 miles 8 cents; 100 miles 10 cents, and so on; over 450 miles 25 cents; changes were occasionally made that increased rates. In 1845 the rates were reduced to 5 cents for distances of 300 miles or less and 10 cents for greater distances. In 1851 prepayment 3 cents under 3000 miles and 5 cents when not prepaid—double rates for longer distances. In 1855 was first adopted compulsory prepayment and put at 3 cents for less than 3000 miles and 10 cents for greater distances. In 1863 the uniform prepaid rate of 3 cents for any distance in this country was adopted. Oct. 1, 1883, the rate on letters was reduced to 2 cents each half ounce. July 1, 1885, the rate on letters was made 2 cents per OUNCE.

OLD ENGLISH HOLIDAYS.

These holidays with their names, had their origin in mediæval England when the State religion was that of the Church of Rome, and they are still observed generally or in some parts of England, Scotland, and Ireland.

JANUARY 6. TWELFTH DAY, or Twelfth-tide, sometimes called Old Christmas day, the same as Epiphany. The previous evening is Twelfth Night, with which many social rites have long been connected.

FEBRUARY 2. CANDLEMAS. Festival of the Purification of the Virgin. Consecration of the lighted candles to be used in the church during the year.

FEBRUARY 14. OLD CANDLEMAS, ST. Valentine's Day.

MARCH 25. LADY DAY: Annunciation of the Virgin. April 6 is Old Lady Day.

JUNE 24. MIDSUMMER DAY: Feast of the Nativity of John the Baptist. July 7 is old Midsummer Day.

JULY 15. ST. SWITHIN'S DAY. There was an old superstition that if rain fell on this day it would continue forty days.

AUGUST 1. LAMMAS DAY. Originally in England the festival of the wheat harvest. In the Church the festival of St. Peter's miraculous deliverance from prison. Old Lammas Day is August 13

SEPTEMBER 29. MICHAELMAS. Feast of St. Michael, the Archangel. Old Michaelmas is October 11.

NOVEMBER 1. ALL-HALLOWMAS. All-hallow, or All Saints' Day. The previous evening is All-hallow-e'en, observed by home gatherings and old-time festive rites.

NOVEMBER 2. ALL SOULS' DAY Day of prayer for the souls of the dead.

NOVEMBER 11. MARTINMAS. Feast of St. Martinmas is November 23.

DECEMBER 28. CHILDERMAS. Holy Innocents Day.

Lady Day, Midsummer Day, Michaelmas and Christmas are quarter (rent) days in England, and Whitsunday, Martinmas, Candlemas, and Lammas Day in Scotland.

Shrove Tuesday, the day before Ash Wednesday, and Maundy Thursday, the day before Good Friday, are observed by the church. Mothering Sunday is Mid-Lent Sunday, in which the old rural custom obtains of visiting one's parents and making them presents.

COINS IN LOCAL CIRCULATION

Philippine Pesos and United States gold coins are unlimited legal tender in the Philippine Islands. The circulation of all foreign coins not upon a gold basis is prevented by means of a prohibiting tax upon their use. *The unit of value* in the Philippine Islands is the theoretical gold peso, containing 12.9 grains of gold, nine tenths fine, representing a gold value exactly equivalent to one twentieth of the United States gold Eagle, or, in other words, equivalent to fifty cents United States Currency. Pesos, Philippine Currency, are by the following mark (P). The *Philippine Currency System* is that commonly known as the Gold-Exchange Standard. The parity is maintained by the sale of drafts in the Philippines by the Government on its redemption fund in New York and the sale of drafts in New York by the agent of the Philippine Government on the Government's redemption fund in Manila. The Goverment's rates of exchange are fixed, and represent as nearly as practicable the cost of shipping gold bars betwen New York and Manila. The Philippine Government, at its option, xchange Philippine Currency for United States Currency and vice versa, charging for the gold coin a slight premium sufficient to pay transportation expenses. The sale of drafts, on the other hand, is not optional but obligatory on the part of the Government. *Philippine Silver Certificates*, while not legal tender, are exchangeable on demand for legal tender coin, are receivable in payment for all Government dues, and may be held by banks as part of their legal reserve. United States paper currency though not legal tender is received by the Government and regularly passes current in the trade of the Islands.

The following denominations of Philippine Currency are in general circulation

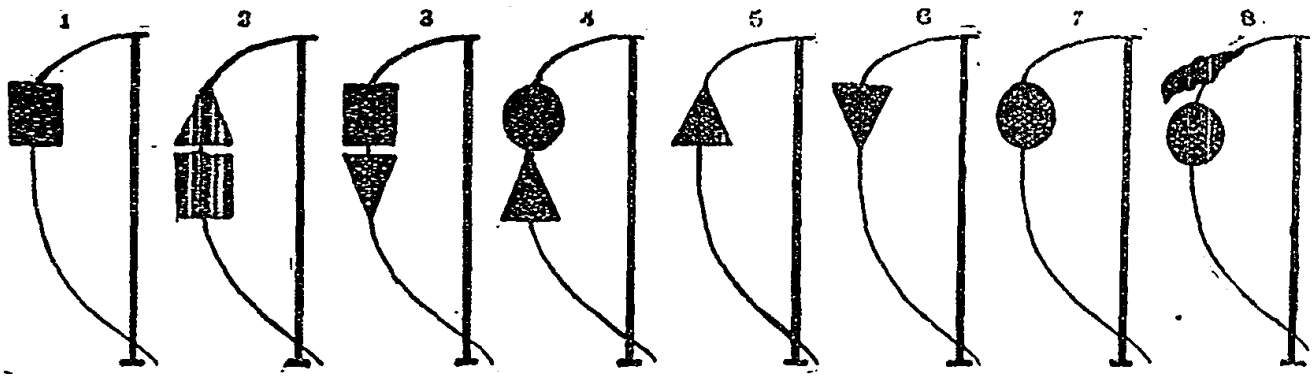
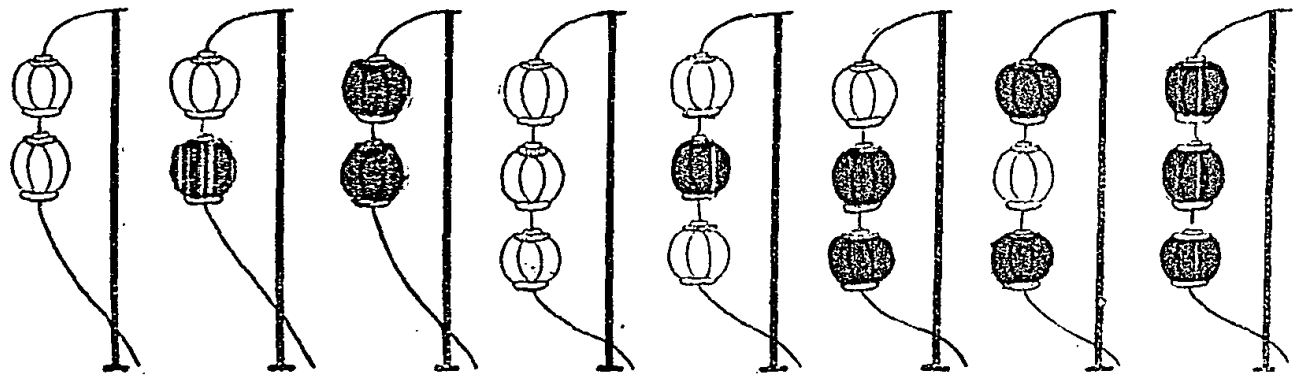
TYPHOON SIGNALS



Day Signals



Night Signals

(See opposite page for significance of signals)

SIGNIFICANCE OF TYPHOON SIGNALS

CHARACTER OF DAY SIGNALS:—Black cylinder, 1½ feet in diameter, 2 feet high. Black Cone, base 1½ feet in diameter, 2 feet high. Black sphear 2 feet in diameter. Flag 3 or 4 feet square, of any convenient color, arranged as on opposite page.

CHARACTER OF NIGHT SIGNALS:—Red and white lights in either vertical or horizontal line arranged as on opposite page.

No. 1. Indications of a distant typhoon. Movements uncertain. Look out for the next signal. Vessels prepare to get up steam. Small vessels remain in port.

No. 2. Typhoon passing to northward at considerable distance. Strong winds from third quadrant (west to south). Vessels strengthen moorings and send down light spars. Get up steam. Dangerous for small vessels to be under way.

3. Typhoon passing to southward at considerable distance. Strong winds from second quadrant (east to south). Winds generally less severe than for signal No. 2. but same precautions required.

4. Typhoon likely to be dangerous. Look out for next signal. Strengthen moorings and send down light spars. Use steam if necessary. Small vessels remain at moorings.

5. Typhoon passing to northward very near. Strong gales from northwest to southwest. Strengthen moorings as much as possible. Lower and secure all gear. Use steam to help anchors. No vessels under way.

6. Typhoon passing to southward very near. Strong gales from northeast to southeast. Gales generally less severe than for signal No. 5, but same precautions required.

7. Typhoon center very near. Dangerous gales and heavy squalls. Precautions same as for signals Nos. 5 and 6

8. Storm wave, very high tides and floods. No vessels can come in or go out of port nor move about the harbor.

YOU should have a copy of this Directory on your desk and at your home at all times. Subscription, Ten Pesos per year. Single copies Six Pesos.

TABLE OF DISTANCES

FROM ILOILO TO,	MILES
Manila, N. W.	297
Manila, via Iloilo and Mindoro Straits	440
Puerto Princessa, Palawan, across Sulu Sea	276
Romblon, N.	181
Zamboanga, via Sulu Sea	276

Iloilo, the capital of Iloilo Province, is located on the Island of Panay on a point which projects into the channel of Iloilo Straite at the mouth of a river by the same name. It has been a port of entry since 1855. It contains a cable station and the U. S. Army make it their headquarters for the Department of the Visayas.

The climate is not so oppressive as that of Manila and typhoons and earthquakes are rare in this visinity. Next to Manila, Iloilo is the most important city in the Philippines in exports and imports. The former consisting of sugar, tobacco. rice, coffee, hides and hemp; the latter principally of Australian coal and general merchandise. A weekly steamship service is maintained between Iloilo and Manila.

The City of Iloilo includes five suberbs—Jaro, Molo, Mandurias, La Paz and Pavia which gives this city a population of 54,192 inhabitants.

The Province of Iloilo has some of the best-built gravel roads in the archipelago. The principal towns are in cart communication with Iloilo, and the rest of the settlements are in cart communication with these highways by means of trails. The large rivers are navigatible for native boats, especially in the rainy season, some of them to the foot of the mountains. By means of these communications the products of the country are largely concentrated at Iloilo.

The products are sugar cane, corn, rice, coffee, chocolate, tobacco, hemp and others for home consumption.

Mines of gold, iron and other metals, and quarries of fine stone are found in this province. There are extensive forests of valuable woods for building, dyeing and other purposes. The fruits on Panay consists of mangosteens, bananas and oranges.

The inhabitants of Iloilo, particularly of the suberb of Molo, make excellent fabrics, called jusi and pefia cloth, from pineapple fiber mixed with silk and cotton.

The city of Iloilo is still in a state of reconstruction from the losses suffered from the fire caused during the war times and little by little edifices are springing up in the destroyed portion of the city as on Calle Reál and other important places. Its means of transportation exists only in vehicles, but of a sufficient number and at prices relatively cheap.

There are five hotels in the city and three restaurants. The hotels are commodious and offer any comfort to the traveller.

Iloilo is known as the second capital of the Philippines, but has made little progress in the past six years, owing to the condition of her commerce and the general deprecion of the planters in the province and the island of Negros.

However, this might happen in any country which, like the Philippines, is suffering a period of transition; but notwithstanding these difficulties one can note a movement of activeness.

Iloilo boasts of an up-to-date Electric Light Company, Cold Storage and Ice Plant and surveys have been made for a new railroad from one end of Panay to the other. The "Second Capital" of the Islands will offer in a few years great attractions to the tourist owing to its geographical situation and the excellent hygienic conditions prevailing, added to the proverbial hospitality of its inhabitants, which deserves the admiration, not only of strangers, but also of Filipinos from other parts.

Cebu, the capital of Cebu Province, is situated on the east coast of the Island of Cebu. The harbor is one of the finest in the Philippine Islands, protected by the Island of Mactan and the coral reefs. The country in this vicinity is level and very fertile. Cebu contains over 3000 buildings and has shown remarkable progress since American occupation. The streets are wide and laid out on a regular plan. Cebu is one of the oldest and most historical cities in the archipelago. The "Rizal", a small structure facing the main plaza in front of the gate entering the grounds of the Sto Nino Church, holds the cross which was planted by Magellan in Cebu on taking possession of the Island. To the east of Cebu is the little Island of Mactan where Magellan, a victim of his own rashness, met his death when he was just on the point of completing his proof that the world was round. The old fort, built of stone, is directly on a point in the harbor and, like all Spanish forts, it is picturesque. The old buildings and their surroundings make a trip to Cebu a very interesting one to the tourist.

Besides its historical interests, Cebu is a very active and important commercial center. The manufacture of sugar, salt (especially on the Island of Mactan at Opon), cocoanut wine, pottery, jusi, sinamay, pena cloth, also sugar sacks, is extensive. The cheese of Cebu is famous throughout the archipelago. In the waters along the coast are found the celebrated Regadera de Cebu (Euplectella, glass sponge, or Venus flower baskets), the only one of its genus, and the rare and much sought shell, gloria maris. The fisheries are also important. The inter-island and foreign commerce through the port of Cebu is very large. A weekly steamship service is maintained from Cebu to Manila.

Along almost the entire east coast of Cebu is a highway which unites 21 towns with the Capital; another on the west coast connects many of the towns on that side of the island, and fairly good roads have been constructed throughout the other parts of the island all leading into Cebu.

The chief vegetable products of Cebu are rice, a superior grade of chocolate, corn, a fair grade of sugar, coffee, tobacco, and green vegetables in spring; cotton is also raised for home use.

The first known coal mines in the Philippines were discovered in Cebu in 1827. Gold and silver, bearing lead ore, are found in the central part of the Island. Petroleum has also been reported.

The mountains are covered with woods suitable for house and ship building, among them are junipers, molaves and bamboos of the best varieties. Cocoanuts grow exclusively in the low lands.

Among the leading fruits both cultivated and wild, are mangosteens, sapotes, pineapples and cocoanut. Mangos and bananas are few.

The insurrection greatly interfered with Cebu's commerce in 1899 and the early part of 1900, and then fire visited Cebu in 1904 burning up a big portion of its business section; but notwithstanding these drawbacks the business men have worked hard to build up their city and with the natural result that business has been steadily increasing until today. Cebu is back in its former place second to no city in the Islands, with but a single exception, Manila.

The population of Cebu, including its suburbs of Mandaue, Pando and Talisao, is 62,254 inhabitants.
